

## **Associate Director of Project Management - PHARMA**

### **About us**

Advanced Accelerator Applications (AAA) is a radiopharmaceutical company founded in 2002 to develop innovative diagnostic and therapeutic products. AAA main focus is in the field of molecular imaging and targeted, individualized therapy for the management of patients with serious conditions (“Personalized Medicine”). The company has a strong pipeline and has maintained continuous double-digit growth in sales for the last 10 years of commercial operations. AAA is headquartered in St Genis Pouilly, France, and currently has 22 production and R&D facilities able to manufacture both diagnostics and therapeutic MNM products, and over 500 employees in 13 countries (France, Italy, UK, Germany, Switzerland, Spain, Poland, Portugal, The Netherlands, Belgium, Israel, U.S. and Canada). AAA is listed on the Nasdaq Global Select Market under the ticker “AAAP”.

AAA has also a broad pipeline of products in development. The company's lead product, Lutathera®, is an advanced Phase III theragnostic oncology product developed to treat gastroenteropancreatic neuroendocrine tumors. Another AAA product in development is the radiopharmaceutical Gallium-68 Dotatate which received orphan drug status designation by both FDA and EMA, in early 2014, as a diagnostic agent for the management of GEP-NETs. Also, Phase I/II studies have been initiated with Annexin V-128, a diagnostic 99mTc tracer for apoptosis and necrosis.

### **Summary**

Director of Project Management is a key role at AAA responsible to manage our product pipeline through all stages of product development cycle from conception to FDA submission in collaboration with other departments.

### **Responsibilities:**
