

## Production & Quality Control Technician

### About us

Advanced Accelerator Applications (NASDAQ:AAAP) is an innovative radiopharmaceutical company developing, producing and commercializing molecular nuclear medicine theragnostics. AAA's theragnostic platform is based on radiolabeling a targeting molecule with either gallium Ga 68 for diagnostic use, or lutetium Lu 177 for therapy. AAA's first theragnostic pairing for neuroendocrine tumors includes diagnostic drugs NETSPOT<sup>®</sup> in the US and SomaKit TOC<sup>®</sup> in Europe; and therapeutic USAN: Lutetium Lu 177 dotate/INN: Lutetium (177Lu) oxodotreotide (Lutathera<sup>®</sup>), which is approved for use in Europe and currently under review with the FDA. Additional theragnostics in development target gastrointestinal stromal tumors (GIST), and prostate and breast cancer. AAA is also an established leader in molecular nuclear diagnostic radiopharmaceuticals for PET and SPECT, mainly used in clinical oncology, cardiology and neurology. Headquartered in Saint-Genis-Pouilly, France, AAA currently has 20 production and R&D facilities, and more than 600 employees in 13 countries (France, Italy, the UK, Germany, Switzerland, Spain, Poland, Portugal, The Netherlands, Belgium, Israel, the US and Canada). AAA reported sales of €109.3 million in 2016 (+23% vs. 2015) and €69.2 million in 1H17 (+27% vs. 1H16).

We are currently looking for an experienced **Production and Quality Control Technician** to support the manufacturing of our products in the U.S.

The main tasks of the Production/QC Technician will be to support the establishment and start-up of a new therapeutic radiopharmaceutical production facility in New Jersey, then to play a key role in the production team upon launch. After product launch, the Production/QC Technician will play an active role in daily production as well as setup and preparation of instruments and equipment.
