

M/F SENIOR PRE-CLINICAL SCIENTIST

- **About us**

Advanced Accelerator Applications (NASDAQ:AAAP) is an innovative radiopharmaceutical company developing, producing and commercializing molecular nuclear medicine theragnostics. AAA's theragnostic platform is based on radiolabeling a targeting molecule with either gallium Ga 68 for diagnostic use, or Lutetium Lu 177 for therapy. AAA's first theragnostic pairing for neuroendocrine tumors includes diagnostic drugs NETSPOT® in the US and SomaKit TOC® in Europe; and therapeutic USAN: lutetium Lu 177 dotatate/INN: lutetium (177Lu) oxodotreotide (Lutathera®), which is approved for use in Europe and currently under review with the FDA. Additional theragnostics in development target gastrointestinal stromal tumors (GIST), and prostate and breast cancer. AAA is also an established leader in molecular nuclear diagnostic radiopharmaceuticals for PET and SPECT, mainly used in clinical oncology, cardiology and neurology. Headquartered in Saint-Genis-Pouilly, France, AAA currently has 20 production and R&D facilities, and more than 600 employees in 13 countries (France, Italy, the UK, Germany, Switzerland, Spain, Poland, Portugal, The Netherlands, Belgium, Israel, the US and Canada). AAA reported sales of €109.3 million in 2016 (+23% vs. 2015) and €69.2 million in 1H17 (+27% vs. 1H16).

AAA is looking for a **Senior Pre-Clinical Scientist** to be based in Colletterto Giacosa (To), Italy. This position will report to the Manager of Pre-Clinical Development.

- **Role**

The selected candidate will be in charge of the overall operational management and oversight of pre-clinical studies. He/She will work closely with all R&D members as well as Regulatory Affairs team and Project Management team to coordinate and ensure the successful completion of the pre-clinical activities within the agreed timelines and budget, and in compliance with the required quality and Good Laboratory Practice and ICH Guidelines.

- **Key tasks**

- Coordinate activities of pre-clinical development projects, monitor and document progresses and escalate issues to management.
- Collaborate in the design, review and approval of pre-clinical studies and study documents including but not limited to study protocols and amendments, investigator brochures, progress reports, final pre-clinical study reports, presentations.
- Prepare/ review pre-clinical documentation and ensure on time availability of critical documents and progress reports.
- Prepare pre-clinical project plan and monitor related budgets.
- Be accountable for the deliverables of pre-clinical activities within the agreed timelines and budget.
- Organize, either directly (in house) or through selected CRO that study activities are aligned to the established planning, timelines and budget.
- Ensure the appropriate communication among all functions within the company and with external vendors.
- Coordinate pre-clinical documentation and submissions in support of clinical studies and submissions to Regulatory Agencies within appropriate project timelines, in collaboration with the AAA Regulatory department.

- **Professional skills & experience**

- Advanced scientific degree with emphasis on pre-clinical development.
- Thorough knowledge of pre-clinical research and development processes.
- Comprehensive and practical knowledge of the principles of Good Laboratory Practices and the conduct of pre-clinical activities in accordance with ICH and other preclinical related regulations/guidelines.
- 5 to 10-year pre-clinical research and development experience including in-vitro and in vivo activities.
- Experience in *in-vitro* and *in-vivo* pharmacology, PK/PD and toxicology is required.
